4. A scientist who studies rocks is called a what? **Geologist**
5. How many bones do sharks have? **Zero**
6. What percentage of the brain is made up of water? **75%**

What is market day? What are stalls? Why can't we stop asking questions?!? Ahhhhhhhhh! Our Market Day success happened Thursday week 8. It was very stressful and horrible, how do business owners do this every day? Just imagine seeing nearly dead students slaving away on their business plans all day and all night... The horror! Obviously that didn't actually happen. We are alive thanks to our lovely teachers who gave us a whole 8 weeks of work time. We think we used our time very well! [maybe ... oh ok well admit it we did get distracted here and there hehehe].

We asked some groups how "excited" they were and got some insightful answers. Sadly our wonderful Lynette couldn't see our incredible results, don't worry we filled her in! So many students were so excited, one of our lovely year 4's said she was "SOOOO excited about the Bubble Disco because it was very cheap, only 2 tickets and also because it was super fun and totally not because my big brother Henry is in that group."

# Smiley M&M's KenKen!

Fill in each square cell in the puzzle with a number between 1 and the size of the grid. For example, in a 5x5 grid, use the numbers 1, 2, 3, 4 & 5. Use each number exactly once in each row and each column. Use the operation up the top of the group outlined to add or subtract the numbers to equal the number up the top of the group.

3		4		
+15		+12		
	+7		5	+8
+6		+11		
	+4			

Headline Story continued...

Market Day was really hard guys! We needed to learn how to research, work as a team and provide goods and services to be successful. One particularly conscientious student, Billy Moffitt said 'It was incredibly hard to prepare, we spent a whole 8 weeks of our lives on this! If it didn't pay off...'

And it didn't stop there! 5/6 were exhausted after the rest of the school went back to class, even Peppa Pig was tired...and then! Manuel comes and makes us clean up the mess! We found a lot of great stuff, squished chocolate, nerf bullets and other tasty items. Delicious!

It turns out running a business isn't all glitz and glamour... There is quite a lot of hard work and problem solving involved. It was so tough for all the 5/6's and our 3 lovely teachers, Laura, Lynette and Yueni. We thank our teachers very much for making this day possible and our awesome Lathamites for being such incredible customers! We hope you had a wonderful day!

# Guardians of the Galaxy Vol 2

By Steve LOL

Guardians of the galaxy vol 2 is an amazing movie! I am Groot. Sadly, the film is rated M due to some intense violence and 2 scenes of gore! But hey, maybe your parents will let you watch it? I am Groot. The film is among the most funny marvel movies! It has an excellent and dance worthy soundtrack. If you enjoy some 70's and 80's music then this is for you! I am Grrroooooottt, Woah! language! You will scream with laughter and maybe shed a tear or two. Steve LOL gives it 5/5!

# Smiley M&M's Trivia

1. According to legend, who led a gang of merry outlaws in Sherwood Forest in Nottingham, England?
2. What is the name of the pirate in Peter Pan?
3. In which continent is the country of Egypt found?
4. How many grams are there in a kilogram?
5. What's the colored part of the human eye called?
6. Which planet is closest to our sun?
7. Which famous ocean liner sank on her first voyage in 1912?

# 2020 - A Survival Guide

By Readme

How crazy has it been this year?!?! If I was playing cards, well I would have folded by now. Covid has been a crazy time and it would be simple to tell you how to survive the crazy 2020! Well you're in luck, because I can give you 3 simple tips. No more, no less, just 3.

The first one is super simple. Wash your hands! Scrub your hands with soap and water for 20 seconds before you eat, get home and before you cook just to keep your doomed ones, I mean loved ones, healthy!

You should also eat the right food like suits and vegetables, NO, FRUITS AND VEGETABLES! What's happening to my worlds, so sorry I meant my words! Anyway, eating a variety of fruits and veggies can really boost your immune system so you don't get sick and DIE!!!

Finally, pick your nose AND EAT IT! Sorry! I mean DON'T PICK YOUR NOSE AND EAT IT! THAT'S DELICIOUS!!-I MEAN IT'S DISGUSTING! You know who you are and so do your teachers! Don't do it! It's spreading germs on your fingers and up your nose, just gross! Remember! We're a team here at Latham Primary, we have to work together to get through 2020!
