

*We are learning about procedures in literacy:*

*It is a text that gives instructions;*

*How to make something*

*How something works or*

*How to get somewhere*

*It is important to write the instructions in order;*

*It has a title*

*A list of things you need*

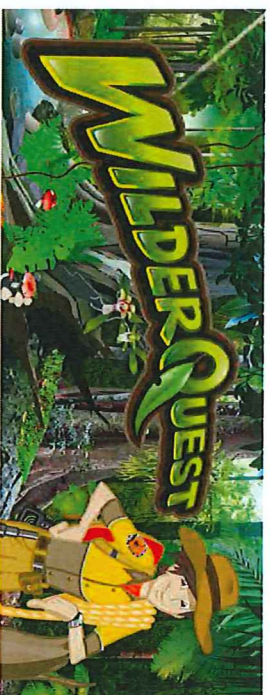

*clear instructions to follow*

*A procedure ends with a comment*

Sally our PE teacher is assisting our students with track and field events ready for the winter athletics carnival

*Every Thursday afternoon we visit our school library and choose from a vast selection of fiction and non-fiction books*

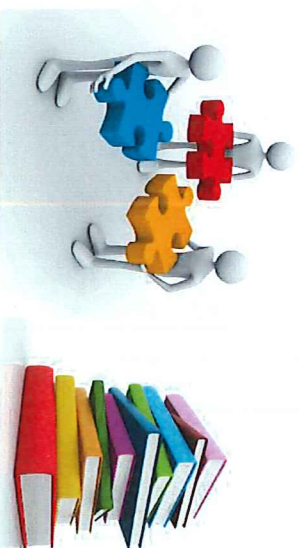

Students will be studying their local environment and using secondary information to investigate living things and their habitats. They will be using rich virtual computer activities as part of their investigations. The students will use labelled diagrams, informative texts and tables to represent their understanding and ideas.

## Enrichment @ Latham

Enrichment is an opportunity for you to work with a different teacher and group of students to develop a new set of skills or to have new experiences that may not be available in your class.

The LSU-A students are eager to participate with other students from across the school.

Our school values are introduced to the class and activities are based on these values:

**Respect**

**Motivation**

**Collaboration**

**Resilience**

**Positivity**

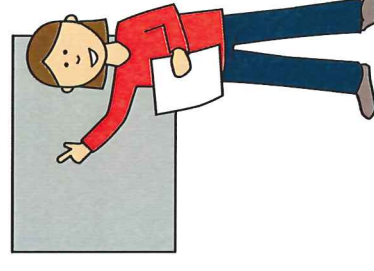

In Japanese students will be revising basic greetings and learning simple sentences to tell someone about themselves. They will explore cultural traditions such as はなみ hanami – flower viewing and こどもの日 *kodomo no hi* – Children's day.

Daniel will be using songs and craft to help to engage the students. Have them teach you!

# The LSU-A

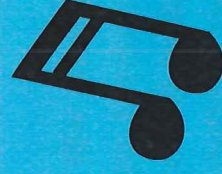

Term 2  
2017

Our teacher is Jan

Our LSAs are: Julie-Ann and Annette

**Amanda**

**will**

**explore**

**music with the class**
