

Term 1

Preschool Term Overview

Dear Preschool families,

Welcome to the Latham Primary School community.

This term we will be investigating the ideas of playing, being and belonging.

At Latham Preschool we believe that play is a fundamental part of a child's development. You will see children enjoying dirty, messy, muddy, sandy, wet play. You will see children collaborating, problem solving, thinking, and creating. As we engage in these experiences we will begin to explore 'who we are' and 'how we belong' to our families, cultural group, our school, our neighbourhood and our wider community.

We will be sending home a page labelled '*All About Me*'. Please work together with your child to complete this. They can draw pictures and use photos of significant people, pets, events and celebrations. This provides a wonderful opportunity to make meaningful connections between home and school.

Our main mode of communication will be via the Seesaw app. This will allow us to share photos and information of your children at Preschool. The purpose is to promote rich conversations with families about what students are engaging with during the day.

Sunblock, hats (will be left at school) and drink bottles (water) are essential as we will spend a large part of our day in the outside learning environment. Please label all belongings.

We are nut free at Preschool, so please avoid them for the safety of our students.

If you have any concerns or questions do not hesitate to make an appointment with us.

Many thanks

The Preschool Team
